

Sample press photo-call invitation

PHOTOCALL NOTICE: for 13 March 2015

Big Old Bones

A new exhibition of reconstructed models of dinosaur skeletons will open on Saturday 13 March 2015 to mark the first day of British Science Week.

Dozens of young people aged 6-8 years from the schools in Middletown will be the first visitors to Middletown Museum to try out the new computers designed to take them back millions of years when dinosaurs first roamed the land.

The young people will be able to examine and look at the bones and find out for themselves how these great beasts survived.

You are invited to take photographs of the young people exploring the skeletons

on

Friday 13th March 2015

at

Middletown Museum, High Street, Middletown

Museum Guide, Mr Takahiro Saito, will be present to give you information about the dinosaurs, the new computer programmes and the event for National Science & Engineering Week.

[Ends]
